| | Mizuho Bank, Ltd. | Outside Corporate Auditor |
| Kentarō Koga | Hitotsubashi University Graduate School of International Corporate Strategy | Associate Professor |
| | Resona Bank, Ltd. | Outside Corporate Auditor |

(Notes)

1. Director who is not an Audit and Supervisory Committee Member Toshihiro Yamamoto assumed the positions as Non-executive Director of Dentsu Aegis Network Ltd. on April 1, 2017 and Outside Director of Rakuten Data Marketing, Inc. on August 25, 2017; and resigned from his position as Outside Director of WOWOW Inc. on June 23, 2017.
2. Director who is not an Audit and Supervisory Committee Member Wataru Mochizuki assumed the position as Representative Director of Dentsu Live Inc. on January 1, 2018.
3. Director who is not an Audit and Supervisory Committee Member Arinobu Soga assumed the position as Non-executive Director of Dentsu Aegis Network Ltd. on April 1, 2017.
4. Director who is not an Audit and Supervisory Committee Member Nobuko Matsubara is scheduled to resign from her position as Outside Director of Ebara Corporation on March 28, 2018.
5. Director who is an Audit and Supervisory Committee Member Toshiaki Hasegawa resigned from his position as Outside Corporate Auditor of Mizuho Bank, Ltd. on June 22, 2017.
6. No items to report for Directors who are not Audit and Supervisory Committee Members Yoshio Takada and Yoshiharu Sengoku and Director who is an Audit and Supervisory Committee Member Kenichi Kato.

5. (2) Important Con-current Posts and Relationship with Dentsu

| Category / Name | Organization of Con-current Post / Description | Relationship with Said Organization |
|---------------------------------------|---|--|
| Outside Director Atsuko Toyama | The Toyota Foundation President | Dentsu does not have any special relationship with the Toyota Foundation. |
| Outside Director Toshiaki Hasegawa | T. Hasegawa & Co. Law Offices Lawyer | Dentsu does not have any special relationship with T. Hasegawa & Co. Law Offices. |
| | Mizuho Bank, Ltd. Outside Corporate Auditor (Resigned as of June 22, 2017) | Dentsu maintains a business and financial relationship with Mizuho Bank, Ltd. |
| Outside Director Kentaro Koga | Hitotsubashi University Graduate School Associate Professor, Graduate School of International Corporate Strategy | Dentsu does not have any special relationship with Hitotsubashi University. |
| | Resona Bank, Ltd. Outside Corporate Auditor | Dentsu maintains a business relationship with Resona Bank, Ltd. |
| Outside Director Nobuko Matsubara | Japan Institute of Women's Empowerment & Diversity Management Honorary Chairman | Dentsu maintains a business relationship with the Japan Institute of Women's Empowerment & Diversity Management. |
| | Daiwa Securities Group Inc. Outside Director | Dentsu maintains a business relationship with Daiwa Securities Group Inc. |
| | Ebara Corporation Outside Director | Dentsu maintains a business relationship with Ebara Corporation. |

V Company System and Policy

1. Basic Policy on Internal Control System

With regard to Article 399-13, Paragraph 1, Item 1 (c) of the Companies Act (or Article 362, Paragraph 4, Item 6 of the Companies Act during the period prior to the transition to a company with an audit and supervisory committee from a company with an audit and supervisory board on March 30, 2016) “The development of systems necessary to ensure that the execution of the duties by the directors complies with the laws and regulations and the articles of incorporation, and other systems prescribed by the applicable Ordinance of the Ministry of Justice as systems necessary to ensure the properness of operations of a Stock Company and operations of group of enterprises consisting of said Stock Company and its Subsidiaries,” the Board of Directors made a resolution at its meeting on March 30, 2006. Subsequent revisions to the Basic Policy on Internal Control System are made as necessary at the meetings of the Board of Directors. The Company’s Basic Policy on Internal Control System is as follows.

Basic Policy on Internal Control System

The Internal Control System at Dentsu is designed to encourage compliance among Directors, Executive Officers, and employees while it supports continuous corporate development as the Company strives to meet its social responsibilities.

The Company has chosen the Dentsu Group Code of Conduct to define the parameters of acceptable behavior, which ensures that Directors, Executive Officers and employees of Dentsu and its subsidiaries comply with all laws, regulations, and the Articles of Incorporation during the course of their duties and that business is conducted appropriately. The Internal Control and Compliance Committee is charged with creating, operating, and improving the Internal Control System.

1. Compliance System for Directors, Executive Officers and Employees

- (1) Directors and Executive Officers must perform their duties appropriately, in accordance with rules such as the Rules for the Board of Directors, Rules for Executive Management Committee operation, Rules for Directors, and the Rules for Executive Officers.
- (2) If a Director or an Executive Officer discovers a violation of the prevailing laws or comes across any other serious compliance-related issue, it is imperative that he/she reports it without delay to the Board of Directors or the Executive Management Committee. Audit and Supervisory Committee Members must also be immediately advised of the circumstances.
- (3) The departments reporting to the CSR Committee create internal policies and manuals and conduct training to improve and enhance the compliance system for employees. The Internal Audit Office, which reports directly to the President & CEO, conducts internal audits.
- (4) The Company has set up an internal reporting and proposal system to respond appropriately in the event a law is broken or some other internal compliance issue arises.
- (5) If Audit and Supervisory Committee Members state opinions on the Company’s compliance system or require steps to improve the system, Directors and Executive Officers must respond without delay and make the recommended improvements.
- (6) The Company has established a department to facilitate the termination of business relationships with organized crime groups and elements thereof – termed “antisocial forces” in Japan – when a link is discovered and to resolutely refuse any and all future transactions. This department functions as the liaison between the affected in-house division and the relevant authorities to expedite an appropriate course of action.

2. Systems to Ensure Efficient Execution of Duties by Directors and Executive Officers

- (1) In addition to meetings of the Board of Directors, Dentsu holds meetings of the Board of Executive Officers, Executive Management Committee, Business Management Committee, various important committees, and expert committees. These meetings provide opportunities to discuss important matters pertaining to management policy and strategy, and to make executive decisions.
- (2) Items resolved at such meetings are transmitted to all employees through the corporate structure for prompt reflection in the execution of duties. Urgent items are posted on the internal electronic bulletin board in the interest of rapid dissemination.

3. Storage and Management of Information Related to the Execution of Duties by Directors and Executive Officers

Information concerning the execution of duties by Directors and Executive Officers is stored and managed appropriately, in accordance with the Company's documentation management regulations and information management guidelines.

4. Risk Management System

- (1) Dentsu establishes risk management regulations to maintain and improve a structure that precludes the spread of damage or loss and minimizes the impact of risk progression in the event risks become reality. The Company performs self-inspection with regard to the situation of risk management under the Internal Control and Compliance Committee, selects key risks to be prioritized, and implements risk management based on concrete response plans.
- (2) The response policy for material risks in management and other material items concerning risk management are reported to the Board of Directors and the Audit and Supervisory Committee.

5. Internal Structure to Support Audit and Supervisory Committee Members and Their Independent Status, etc.

The Company maintains an Audit and Supervisory Committee Office, which consists of employees who assist Audit and Supervisory Committee Members in their duties. This office reports directly to the Audit and Supervisory Committee, thereby preserving its independence from Directors (excluding Directors who are Audit and Supervisory Committee Members) and Executive Officers, and ensuring effectiveness of orders from Audit and Supervisory Committee Members.

6. System for Reporting to Audit and Supervisory Committee Members and Improving Audit Effectiveness

- (1) In addition to stipulating items that Directors (excluding Directors who are Audit and Supervisory Committee Members), Executive Officers, and employees (hereinafter "executives and employees") of Dentsu and its subsidiaries are required to report to Audit and Supervisory Committee Members of Dentsu, the system ensures that significant matters that have an impact on Dentsu's business operations or business results are reported by executives and employees to Audit and Supervisory Committee Members of Dentsu in a certain and prompt manner.
- (2) In the event that Audit and Supervisory Committee Members of Dentsu request information other than those contained in the previous item, executives and employees of Dentsu and its subsidiaries are still required to respond without delay.
- (3) It will be ensured that parties who report under the conditions of the previous items do not receive harmful treatment as a result of reporting.

- (4) Pursuant to laws and regulations, a policy will be defined to account for expenses, etc., incurred during the course of execution of duties by Audit and Supervisory Committee Members, and this information will be disseminated to concerned parties.
- (5) To enhance audit effectiveness, the Internal Audit Office and the Accounting Auditors collaborate.

7. Internal Control System for the Dentsu Group, Including Subsidiaries

Starting with the following items, matters that subsidiaries must establish and operate as members of the Dentsu Group will be defined, and the establishment, operation, and improvement of the Dentsu Group's Internal Control System will be promoted.

- (1) The Dentsu Group Code of Conduct was drafted as the standard for acceptable corporate behavior and embraces the entire Group, including subsidiaries. Each subsidiary passes a resolution on the adoption of the Code.
- (2) In addition to receiving periodic reports from subsidiaries concerning the business operations, business results, and other significant matters concerning subsidiaries, for certain matters that may have a significant effect on the business operation or business results of Dentsu, subsidiaries will request advance approval or report to Dentsu.
- (3) Through Dentsu Aegis Network, which oversees each overseas subsidiary within the Dentsu Group, decision-making and business execution in overseas business operations will be made in an efficient manner.
- (4) Subsidiaries will define standards pursuant to the Dentsu Group Code of Conduct, and by resolution of a meeting of the Board of Directors, etc., will ensure compliance and risk management as members of the Dentsu Group.

8. System to Ensure Appropriateness of Financial Reporting

- (1) Through the Internal Control and Compliance Committee, Dentsu continually supports a system that ensures appropriateness in financial reporting by the Group.
- (2) Subsidiaries and departments involved in business activities perform self-checks through the course of day-to-day operations to determine if internal controls are functioning properly.
- (3) The Internal Audit Office monitors the Internal Control System from a perspective free of operational bias to assess the effectiveness of internal controls related to financial reporting.

2. Summary of Operational Status of Internal Control System

In adherence with the Basic Policy on Internal Control System stated in 1. above which has been resolved by the Board of Directors, the Company is promoting the development and operation of an Internal Control System upon establishing risk management regulations, document handling regulations, and other internal regulations, holding meetings of the Internal Control and Compliance Committee and other committees, and with the department in charge of internal control serving as the core.

The summary of operational status is as follows:

- (1) The Company promotes risk management based on the "Risk Management Regulations," through the five steps of 1) identifying risks that impedes the Company's efforts to achieve its management targets or Internal Control targets, 2) evaluating identified risks, 3) specifying "highest order risk," which may have a significant impact on the Company, 4) formulating a plan to minimize such "highest order risk," and 5) reporting progress in dealing with such "highest order risk." Formulation and implementation of plans to deal with risks are led by each specialized department on a companywide level.

- (2) Concerning establishment of Internal Control Systems across the group of enterprises, including consolidated subsidiaries, applicable companies are identified in advance, rules that must be followed as a group of enterprises are formulated, and requests are made to each company to comply. The Company checks applicable companies in Japan and overseas at the end of each business year whether operations are performed in line with the aforementioned rules, and requires improvement in the case of issues.
- (3) Regarding structures to ensure the appropriateness of financial reporting, in April 2017, in response to the “Internal Control Reporting System” stipulated in Article 24-4-4 of the Financial Instruments and Exchange Act, the Company formulated the “Basic Plan” which provides the companies and business processes applicable for evaluation and the evaluation system, etc., upon discussion with the Accounting Auditor. Following the Basic Plan, the departments executing the business applicable for evaluation and applicable companies confirm that internal control is implemented appropriately and functioning effectively in daily operations and such companies make reports on such confirmation to the Company.

Notes to Consolidated Financial Statements

1. Significant matters for preparing consolidated financial statements

(1) Basis of preparation of consolidated financial statements

The consolidated financial statements of Dentsu Inc. (hereinafter the “Company”) are prepared in accordance with International Financial Reporting Standards (hereinafter “IFRS”) under the Paragraph 1 of Article 120 of the Ordinance on Company Accounting. Under the provisions of the second sentence of the same paragraph of the same Ordinance, some disclosure items required under IFRS are omitted.

(2) Scope of consolidation

Number of consolidated subsidiaries, including Dentsu Aegis Network Ltd., is 911.

(3) Scope of equity method

Number of associates, including Video Research Ltd., accounted for using the equity method is 68.

(4) Accounting policies

1) Basis and method of valuation for significant assets

i Non-derivative financial assets

The Group has early adopted IFRS 9 "Financial Instruments" (revised in October 2010).

a. Financial assets measured at amortized cost

Non-derivative financial assets are classified as financial assets measured at amortized cost if both of the following conditions are met.

- The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets measured at amortized cost are measured at amortized cost using the effective interest method.

The Group assesses whether objective evidence of impairment exists at each reporting date. Impairment losses for a financial asset measured at amortized cost are measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate of financial asset, and recognized as losses. If the amount of impairment losses decreases due to an event occurring after the impairment losses were recognized, the previously recognized impairment losses are reversed by the amount of the decrease through profit.

The impairment losses are recognized through an allowance for doubtful accounts, and the carrying amount of a financial asset is directly reduced by an offset against the

allowance for doubtful accounts when it is considered uncollectible.

b. Financial assets measured at fair value through profit or loss

At the time of initial recognition, equity financial instruments not designated as financial assets measured at fair value through other comprehensive income and debt financial instruments that do not satisfy amortized cost criteria are classified as financial assets measured at fair value through profit or loss.

Subsequent to initial recognition, financial assets measured at fair value through profit or loss are measured at fair value, and changes in fair value subsequent to initial recognition and revenue such as dividends are recognized in profit or loss.

c. Financial assets measured at fair value through other comprehensive income

Equity financial instruments not held-for-sale, in principle, are designated as financial assets measured at fair value through other comprehensive income at the time of initial recognition.

Subsequent to initial recognition, financial assets measured at fair value through other comprehensive income are measured at fair value. Changes in fair value subsequent to initial recognition are recognized in other comprehensive income, and are transferred to retained earnings if a financial asset is derecognized or the fair value declines significantly. Dividends derived from these financial assets are recognized in profit or loss for the year.

ii Derivative financial instruments and hedge accounting

The Group utilizes derivative financial instruments, such as foreign exchange contracts and interest rate swap contracts, to hedge its foreign currency risks and interest rate risks, respectively. At the inception of the hedge, the Group designates and documents the relationship between hedging instruments and hedged items, as well as the objectives and strategies of risk management for undertaking the hedge. The documentation includes hedging relationships, the risk management objective, strategies for undertaking the hedge, and an assessment of the hedge effectiveness.

These hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows, and the hedging relationships are assessed on an ongoing basis to determine whether they actually have been highly effective throughout the hedging periods. Derivative financial instruments are initially recognized at fair value. In addition, derivatives are measured at fair value after initial recognition and changes in the fair value are accounted for as follows:

a. Cash flow hedge

For the effective portion of gains or losses on hedging instruments, changes in the fair value are recognized in other comprehensive income. The amounts recognized in other comprehensive income are recognized in profit or loss when the cash flows from the

hedged items affect profit or loss.

For the ineffective portion, changes in the fair value are recognized in profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised, when the hedge no longer meets the criteria for hedge accounting, or when hedging designation is revoked.

b. Hedge of net investment in foreign operations

Translation differences resulting from the hedges of a net investment in a foreign operation are accounted for similarly to cash flow hedges.

Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognized in other comprehensive income while those for the ineffective portion are recognized in profit or loss.

On disposal of the foreign operation, the cumulative gains or losses recognized in equity as other comprehensive income are reclassified to profit or loss.

c. Derivative financial instruments not designated as hedges

Changes in the fair value of derivative financial instruments are recognized in profit or loss.

iii Inventories

Inventories are mainly comprised of broadcasting rights and contents related to sports and entertainment. The inventories are measured at the lower of cost or net realizable value. The cost of inventories is determined mainly by the specific identification method.

2) Depreciation method for significant depreciable assets

i Property, plant and equipment

Property, plant, and equipment is presented at acquisition cost using the cost model subsequent to initial recognition less accumulated depreciation and accumulated impairment losses. The acquisition cost includes any costs directly attributable to the acquisition of the asset and dismantlement, removal and restoration costs.

Except for assets such as land that are not depreciated, property, plant, and equipment are depreciated mainly using the straight-line method over their estimated useful lives.

However, leased assets are depreciated using the straight-line method over the shorter of their estimated useful lives or lease terms.

ii Intangible assets

Intangible assets are presented at acquisition cost using the cost model subsequent to initial recognition less accumulated amortization and accumulated impairment losses. Intangible assets acquired separately are measured at acquisition cost for their initial recognition, and the costs of intangible assets acquired in business combinations are recognized at fair value at the acquisition date. The acquisition cost for internally generated intangible assets is the sum of the expenditures incurred from the date when the intangible asset first meets all of the capitalization criteria.

Intangible assets are amortized using the straight-line method over their estimated useful lives.

However, leased assets are amortized using the straight-line method over the shorter of their estimated useful lives or lease terms.

iii Investment property

Investment property is presented at acquisition cost using the cost model subsequent to initial recognition less accumulated depreciation and accumulated impairment losses.

Except for assets that are not depreciated such as land, investment property is depreciated mainly using the straight-line method over its estimated useful life.

3) Goodwill

Goodwill is presented at acquisition cost less accumulated impairment losses. Goodwill is not amortized.

Impairment tests for goodwill are performed once a year, irrespective of whether there is any indication that it may be impaired, and in cases where there is an indication of impairment.

4) Recognition of significant provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the obligation will be required to be settled and a reliable estimate can be made for the amount of the obligation. Where the effect of the time value of money is material, provisions are measured based on the present value using a discount rate reflecting the risks specific to the liability.

5) Post-employment benefits

The Group has set up defined benefit plans and defined contribution plans as employee retirement benefit plans. For defined benefit plans, the Group recognizes the difference between the present value of defined benefit obligations and the fair value of any plan assets as either liabilities or assets. For each of the defined benefit plans, the Group determines the present value of defined benefit obligations, related current service cost and past service cost using the projected unit credit method. Discount rate is determined based on high quality corporate bonds yield rate at fiscal year end for the discount period which is set for the projected period until the expected date of benefit payment in each fiscal year.

Service costs and interest costs of defined benefit plans are recognized in profit or loss, and net interest is determined using the discount rate described above. Remeasurements of defined benefit plans are recognized in other comprehensive income in the period when they are incurred. Past service costs are recognized in profit or loss in the period incurred.

The cost for retirement benefits for defined contribution plans is recognized in profit or loss in the period in which the employees render the related services.

6) Foreign currency translation

Foreign currency transactions are translated into each functional currency of the Group entity using the exchange rate at the date of the transaction.

At each fiscal year end, monetary assets and liabilities denominated in foreign currencies, and non-monetary assets and liabilities denominated in foreign currencies carried at fair value are translated into the functional currency at closing rate, and the resulting translation differences are recognized in profit or loss.

Non-monetary items measured at foreign currency-denominated costs are translated at exchange rate at the date of transaction.

For financial statements of foreign operations, assets and liabilities are translated into Japanese yen at closing rate for a reporting period, and revenue and expenses are translated into Japanese yen using the average rate for the reporting period unless there are significant changes in the exchange rate. Resulting translation differences are recognized in other comprehensive income, and cumulative differences are recognized in other components of equity.

When a foreign operation of the Group is disposed of, cumulative translation differences relating to that foreign operation are transferred to profit or loss.

7) Accounting method for consumption taxes

Consumption taxes are accounted for using tax-excluding method.

8) All figures are rounded down to the nearest million yen.

2. Notes to consolidated statement of financial position

| | |
|---|--------------------------|
| (1) Assets pledged as collateral | |
| Other financial assets (current assets) | 54 million yen |
| The above assets are pledged as collateral to secure trade and other payables of 515 million yen. | |
| Other than the above, other financial assets (current assets) of 15 million yen are pledged as collateral for guarantee transactions that are disclosed in the "Official Gazette" (Kanpou) and related to other operations. | |
| (2) Allowance for doubtful accounts directly deducted from assets | |
| Trade and other receivables | 227 million yen |
| Other financial assets (non-current assets) | 22,104 million yen |
| (3) Accumulated depreciation and impairment losses of property, plant and equipment | 120,684 million yen |
| (4) Accumulated depreciation and impairment losses of investment property | 8,990 million yen |
| (5) Contingent liabilities | |
| Guarantees of loans and other liabilities | |
| Liabilities on guarantees resulting from a loan scheme for housing funds for employees | 207 million yen |
| Liabilities for guarantees of bank loans and others | 1,906 million yen |
| Total | <u>2,114 million yen</u> |

3. Notes to consolidated statement of changes in equity

- (1) Class and total number of issued shares as of December 31, 2017
- Ordinary shares: 288,410,000 shares
- (2) Cash dividends
- 1) Dividends paid

| Resolution | Class of shares | Total dividends (million yen) | Dividends per share (yen) | Record date | Effective date |
|---|-----------------|----------------------------------|------------------------------|----------------------|-------------------|
| Board of Directors (February 14, 2017) | Ordinary shares | 12,831 | 45.00 | December 31, 2016 | March 9, 2017 |
| Board of Directors (August 9, 2017) | Ordinary shares | 12,685 | 45.00 | June 30, 2017 | September 1, 2017 |
| Total | | 25,516 | | | |

- 2) Dividends for which the record date falls before fiscal year end, while the effective date falls in the following fiscal year:

Dividends paid based on the resolution of the Board of Directors' meeting held on February 13, 2018

- | | | |
|-----|---------------------|--------------------|
| i | Total dividends | 12,685 million yen |
| ii | Dividends per share | 45 yen |
| iii | Record date | December 31, 2017 |
| iv | Effective date | March 8, 2018 |

Retained earnings are reserved as a source of dividends.

4. Financial instruments

(1) Status of financial instruments

The Group limits the use of capital to short-term deposits and others, and raises working capital through borrowings from bank and other financial institution.

The Group aims to reduce customer credit risk associated with trade receivables, such as notes and accounts receivables, based on credit management rules and guidelines. Fair value for equity securities included in other financial assets or financial liabilities measured at fair value included in other financial liabilities are obtained and analyzed every quarter.

The use of the borrowings ranges from capital investment to investment and working capital. For interest rate fluctuation risks associated with a portion of long-term borrowings, interest expenses are fixed using interest rate swap contracts. In addition, derivative transactions are limited to those based on the actual demands in line with the internal management rules.

(2) Fair value of financial instruments

The carrying amount on the consolidated statement of financial position and the fair value as of December 31, 2017 are as follows. The following table excludes financial instruments measured at fair value and financial instruments whose fair value approximates their carrying amount on the consolidated statement of financial position.

(Unit: Million yen)

| | Carrying amount | Fair value |
|---|-----------------|----------------|
| (Financial liabilities) Long-term borrowings | 419,099 | 420,572 |

(Note) The calculation method of fair value for financial instruments is as follows:

1. Long-term borrowings

Current portion of long-term borrowings is included in the above. The fair value of long-term borrowings is determined by discounting the total of the principal and interest by the interest rate assumed in a case where the same loan is newly made.

5. Investment property

(1) Status of investment property

The Company and its certain subsidiaries own some rental properties such as office buildings and commercial facilities in Tokyo Prefecture and other areas.

(2) Fair value of investment property

The carrying amount on the consolidated statement of financial position and the fair value as of December 31, 2017 are as follows:

(Unit: Million yen)

| | Carrying amount | Fair value |
|---------------------|-----------------|------------|
| Investment property | 37,360 | 48,006 |

(Notes)

1. The carrying amount on the consolidated statement of financial position is the acquisition cost less accumulated depreciation and accumulated impairment losses, if any.
2. The fair value of investment property is mainly based on a valuation conducted by independent real estate appraisers. The valuation techniques are based on discounted cash flow model or observable quoted prices for similar properties and others.

6. Per share information

- | | |
|---|--------------|
| (1) Equity attributable to owners of the parent per share | 3,878.03 yen |
| (2) Basic earnings per share (attributable to owners of the parent) | 373.11 yen |

7. Significant subsequent events

No items to report.

8. Other notes

Due to the tax reform in the U.S. enacted on December 22, 2017, income tax expense decreased by 5,809 million yen in the year ended December 31, 2017.

Notes to Nonconsolidated Financial Statements

1. Summary of significant accounting policies

(1) Valuation basis and method for securities

1) Subsidiaries' and associates' shares

Stated at cost determined by the moving-average method

2) Other securities of subsidiaries and associates

Stated at cost determined by the moving-average method

Investments in investment business limited liability partnerships and similar associations (those deemed as securities under Paragraph 2 of Article 2 of the Financial Instruments and Exchange Act) are stated at net amount equivalent to the Company's equity on the basis of the most recent financial statements available as of the financial reporting date stipulated in respective partnership contracts.

3) Other securities

Available-for-sale securities with fair values

Stated at fair value as of the fiscal year end date, based on quoted market prices (Unrealized gains and losses are reported, net of applicable taxes, in a separate component of net assets. The cost of securities sold is determined by the moving-average method.)

Available-for-sale securities without fair values

Stated mainly at cost determined by the moving-average method

(2) Valuation basis and method for inventories

Inventories held for the purpose of ordinary sales

Works, work in process and supplies

Stated at cost determined by the specific identification method

(Amounts in the balance sheet were calculated by writing down the book value based on decreased profitability.)

(3) Valuation basis and method for derivative instruments

Stated at fair value

(4) Depreciation method for non-current assets

1) Property, plant and equipment

Depreciation of property, plant and equipment is calculated by the declining-balance method based on the fixed rates, while the straight-line method is applied to buildings (excluding building improvements) acquired on or after April 1, 1998 and building improvements and structures acquired on or after April 1, 2016.

The range of useful lives is principally as follows:

Buildings: 2-50 years

Structures: 2-50 years

Tools, furniture and fixtures: 2-20 years

However, finance leases other than those that are deemed to transfer the ownership of the leased assets to the lessees are depreciated by the straight-line method, assuming the lease period as the useful life and residual value as zero.

2) Intangible assets

Amortization of intangible assets is calculated by the straight-line method. Software for internal use is amortized by the straight-line method over the estimated useful lives (5 years).

Assets leased under finance leases other than those that are deemed to transfer the ownership of the leased assets to the lessees are amortized by the straight-line method, assuming the lease period as the useful life and residual value as zero.

3) Long-term prepaid expenses

Long-term prepaid expenses are equally amortized.

(5) Accounting policy for provisions

1) Allowance for doubtful accounts

To prepare for losses from bad debts such as operating receivables, the Company provides an allowance for doubtful accounts at an amount corresponding to possible losses from uncollectible trade receivables based on the actual rate of losses from bad debt for ordinary receivables, and on the estimated recoverability for specific doubtful receivables.

2) Provision for directors' bonuses

The Company makes a provision for directors' bonuses based on the estimated amount payable.

3) Provision for loss on guarantees

To prepare for future losses arising from debt guarantees, the Company makes a provision at the estimated amount of loss based on the financial condition of the guaranteed companies.

4) Provision for retirement benefits

The Company accounts for the liability for employees' retirement benefits based on the projected retirement benefit obligation and plan assets at the balance sheet date.

i. Service period attribution method for projected retirement benefits

In calculating retirement benefit obligations, expected benefit payments are assigned to the period up to the current fiscal year in accordance with the benefit formula method.

ii. Accounting for actuarial gain or loss and past service cost

The actuarial gain or loss is amortized by the straight-line method over a certain number of years (17 years) within the average remaining service years for employees at the time of recognition from the following fiscal year of recognition during each fiscal year.

Past service cost is amortized by the straight-line method over a certain number of years (17 years) within the average remaining service years for employees at the time of recognition.

The actuarial gain or loss related to a defined benefit pension plan for retired employees before transfer to a defined contribution pension plan is amortized over a certain number of years (7 years) by the straight-line method within the average remaining years of payment for eligible employees.

(6) Derivatives and hedging activities

1) Hedge accounting methods

The Company uses the deferred-hedge accounting method. The interest rate swaps which qualify for hedge accounting and which meet specific matching criteria are not remeasured at market value, but the differential paid or received under the swap agreements is recognized and included in interest expense or income.

2) Hedging instruments and hedged items

- i. Hedging instrument: Forward exchange contracts
Hedged item: Forecasted transactions denominated in a foreign currency
- ii. Hedging instrument: Interest rate swaps
Hedged item: Interest on loans payable

3) Hedging policy

The Company uses derivative financial instruments to manage its exposures to fluctuations in foreign currency exchange for transactions denominated in foreign currencies and interest rate fluctuations on loans payable. The Company does not enter into derivatives for trading or speculative purposes.

4) Method of evaluating hedge effectiveness

Concerning forward foreign exchange contracts, the Company evaluates hedge effectiveness by confirming that there is a high correlation between the exchange rate fluctuations of hedged items or cash flow fluctuations and exchange rate fluctuations of hedging instruments or cash flow fluctuations.

The evaluation of hedge effectiveness for interest rate swaps which qualify for hedge accounting and which meet specific matching criteria is omitted since the above exceptional treatment is adopted.

(7) Accounting method for consumption taxes

Consumption taxes are accounted for using tax-excluding method.

(8) Accounting for retirement benefits

The method of accounting for unrecognized actuarial losses and unrecognized past service costs relating to retirement benefits differs from the method used in the consolidated financial statements.

(9) All figures are rounded down to the nearest million yen.

2. Changes in presentation

(Nonconsolidated statement of income)

“Gain on sales of investment securities,” which was separately disclosed in “Extraordinary income” in the previous fiscal year, has been included in “Other” from the current fiscal year, due to a decrease in its monetary significance. In addition, “Loss on sales of shares of subsidiaries and associates” and “Special retirement expenses,” both of which were separately disclosed in “Extraordinary loss” in the previous fiscal year, have been included in “Other” from the current fiscal year, due to a decrease in their monetary significance.

3. For nonconsolidated balance sheets

(1) Assets pledged as collateral

Cash and deposits securing transactions 10 million yen

(2) Accumulated depreciation of property, plant and equipment 62,603 million yen

(3) Contingent liabilities

Guarantee obligations outstanding

Liability on guarantees resulting from a loan scheme for housing funds for employees 207 million yen

Liabilities on guarantees of bank loans taken out by the following companies:

Dentsu Aegis Network Ltd. and Aegis Group Holdings Ltd.

(Line of credit for operating funds: GBP 500 million) 75,975 million yen

Aegis Triton Ltd.

(Loan of USD 400 million to cover early redemption of US private placement bonds) 45,200 million yen

Total of 7 companies including Dentsu East Japan Inc. 1,057 million yen

Total 122,440 million yen

(4) Monetary claims/obligations to associated companies

Short-term monetary claims 109,745 million yen

Long-term monetary claims 2,129 million yen

Short-term monetary obligations 244,003 million yen

Long-term monetary obligations 274 million yen

- (5) The Company revalued the land used for its business in accordance with the “Law Concerning Revaluation of Land (Act No. 34; March 31, 1998).” The revaluation difference after deducting the related tax has been included in “Net assets” as “Revaluation reserve for land,” and the related tax is included in “Liabilities” as “Deferred tax liabilities for land revaluation.”

Revaluation method set forth in Paragraph 3 of Article 3 of said law

The value of land is determined using two methods. One is to compute the property value based on the assessed value of the property, which becomes the basis of calculation of the property tax amounts as stipulated in Article 16 of the Property Tax Act, computed by a method determined and announced by the Director-General of the National Tax Agency Japan, adjusted reasonably, as stipulated in Item 4 of Article 2 of the Ordinance for Enforcement of the Act on Revaluation of Land (Government ordinance No. 119; March 31, 1998). The other method is calculation by appraisal and evaluation by a real estate appraiser as stipulated in Item 5 of Article 2 of the Ordinance for Enforcement of the Act on Revaluation of Land.

Date of revaluation March 31, 2001

Total fair values of revaluated properties as of the end of the fiscal year ended December 31, 2017 were not below the book value after the revaluation.

4. For nonconsolidated statement of income

Volume of transactions with associated companies

| | |
|-----------------------------------|----------------------------|
| Sales | 113,122 million yen |
| Cost of sales | 318,529 million yen |
| Other operating transactions | 24,063 million yen |
| Other than operating transactions | 22,514 million yen |

5. For nonconsolidated statement of changes in net assets

Classes and number of treasury shares at the end of the fiscal year ended December 31, 2017

| | |
|--------------|-------------------------|
| Common stock | 6,511,082 shares |
|--------------|-------------------------|

6. Tax effect accounting

The main factors resulting in deferred tax assets are accrued expenses and allowance for doubtful accounts.

The main factors resulting in deferred tax liabilities are valuation difference on available-for-sale securities and the gain on contribution of securities to the employee benefit trust.

7. Transactions with related parties

Subsidiaries and associates

| Category | Name of company | Ratio of voting rights | Relationship with affiliated entity | Description of transactions | Transaction sum (mil. yen) | Item | Ending balance (mil. yen) |
|--------------------|--|--|---|---|---|---|--|
| Subsidiary company | Dentsu Aegis Network Ltd. | Dentsu has voting rights Direct; 100% | Entrusted management of overseas business operation and guarantee of bank loans Concurrently serving officers | Guarantee of bank line of credit ¹ | 75,975 | - | - |
| Subsidiary company | Aegis Group Holdings Ltd. | Dentsu has voting rights Indirect; 100% | Guarantee of bank loans | Guarantee of bank line of credit ¹ | 75,975 | - | - |

| Subsidiary company | Information Services International -Dentsu, Ltd. | Dentsu has voting rights Direct; 61.8% | Dentsu outsources information processing services | Loans payable via cash management system ⁷ Payment of loans interest ⁷ | - 2 | Short-term loans payable Accrued expenses | 27,276 0 |

Remarks

1. A guarantee was made for a bank line of credit (GBP 500 million, five-year period) with Dentsu Aegis Network Ltd. and Aegis Group Holdings Ltd. as counterparties.
2. The interest rates for the loaned funds (USD 400 million, five-year period, and bullet repayment upon maturity) are determined reasonably with reference to market interest rates. No collateral has been accepted.
3. The bank loans (USD 400 million, seven-year period) have been guaranteed, and a guarantor's fee of 0.2% per annum has been received.

4. Because the balance of the loaned funds fluctuates daily based on the basic contract, only the ending balance is stated here. Interest rates are determined with reference to market interest rates.
5. Factoring transactions are settled through a factoring method based on a three-party basic contract between the Company, the Company's business partner and Dentsu Management Service Inc.; the terms of the transactions set out in the basic contract are determined with reference to the market conditions. The transaction sum and ending balance also include consumption tax.
6. Transaction terms and the principles for deciding on them are determined in the same manner as for ordinary transaction terms. Consumption taxes and other expenses are not included in the transaction sum. However, they are included in the ending balance.
7. Because the balance for the loans payable via cash management system fluctuates daily based on the basic contract, only the ending balance is stated here. Interest rates are determined with reference to market interest rates.

8. Per share information

| | |
|--------------------------|---------------------|
| (1) Net assets per share | 3,331.56 yen |
| (2) Net income per share | 224.82 yen |

9. Significant subsequent events
